

## Promoção do aluno - EduAppGT PRO

Data de criação : 27 de setembro de 16

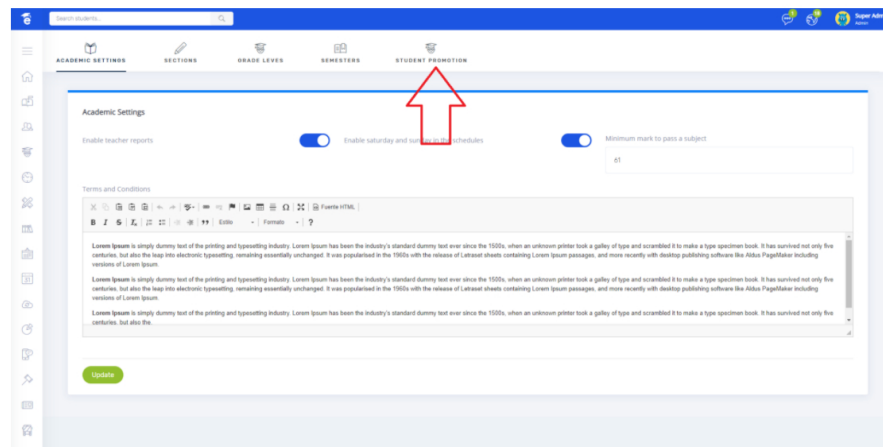

Para promover seus alunos para o próximo ano você deve realizar os seguintes passos:

**NOTA:** Os alunos passarão do ano encerrado para o próximo ano.

\* Vá para **Configurações Acadêmicas** no menu de navegação.

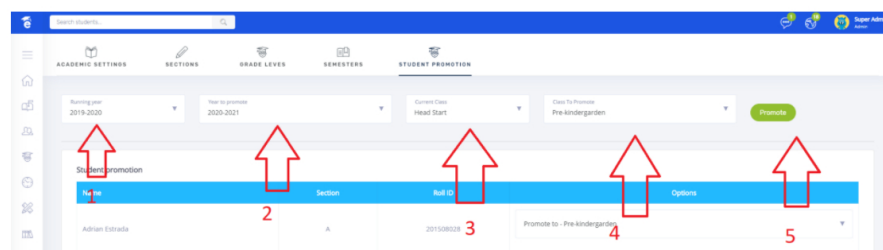

\* Defina a nota mínima e aplique as alterações.

\* Now select the current year, next year, current class and new class, then click Promote.

Now you will see the list of students to promote, if you only want to promote the students who have passed, just change the class for the current one and that's it, that student will not be promoted, the rest will be promoted to the next class and year.
